Technical Skills

Languages and DataBases: Java,HTML,CSS,JavaScript ,MongoDB
Visualization Tools: ReactJS, NodeJS, Express
Other Skills: Photoshop,Figma

Experience/Projects

Shipgig Ventures Pvt Ltd.   **February 2024 – July 2024**
Frontend Trainee   *Noida, India*

- Developed a **secure and user-friendly travel booking system** designed for seamless user experience.
- Integrated **real-time options** for **flight booking, car rentals,** and **hotel reservations,** providing users with a comprehensive travel solution.
- Developed an **admin panel for managing bookings**, user accounts, and system settings, providing full control over the platform. Included **multi-language options** to make the platform accessible to non-English speaking users.
- Focused on **accessibility** and **responsiveness** to ensure the platform works smoothly across all devices.
- Conducted thorough **testing and user feedback analysis**, resulting in continuous improvements and refinements to the platform's functionality and usability.

App Squadz Pvt Ltd.   **May 2023 – October 2023**
Full Stack Developer - Trainee   *Noida, India*

- Developed an **intuitive online food ordering platform** that connects users with local restaurants, offering a variety of cuisine options and a seamless ordering experience.
- Employed **Node.js** to manage server-side logic, handle orders, and interface with the database.
- **Enabled secure online payments** through Stripe, supporting multiple payment methods and currencies for global accessibility.
- Used **MongoDB** for secure and scalable storage of user data, restaurant information, menu items, and order histories.
- Integrated **Firebase** for real-time updates and push notifications, enhancing user communication.

Intern Shala - Training   **May 2022 – July 2022**
Full Stack Developer   *Online*

- Developed a **dynamic and user-friendly PG (Paying Guest)** accommodation website to connect tenants with available rental options, featuring a comprehensive search and booking system.
- Built **with** React.js **to create a responsive and interactive user interface**, enhancing user experience with dynamic content updates and real-time features.
- Implemented with **PHP** to manage server-side logic, process user requests, and handle database interactions for booking and listing management.
- Developed **advanced search and filter functionalities** to help users find PG accommodations based on location, price range, and amenities.
- Ensured the **website is fully responsive and mobile-friendly** using CSS frameworks and React.js, providing a consistent experience across all devices.

Personal Projects/Awards & Achievements

Oscar Printing: Interactive Printing Website / *Freelance*   **April 2022 - May 2022**

- Developed a **secure and user-friendly printing** tailored for Oscar Printing, ensuring efficient handling of orders and customer requests.
- Utilized **React.js** to build an interactive and responsive user interface, ensuring smooth navigation and a positive user experience.
- Employed **Node.js** for robust server-side operations, managing data flow and handling customer requests efficiently.

Education

Jodhpur Institute of Engineering and Technology   **Aug 2020 – May 2024**
Bachelor of Technology In Computer Science   *Jodhpur, Rajasthan*
